Rep. Luján Will Highlight the Need for Health Care Reform, Quality, Affordable Health Care for All Americans

Santa Fe, NM - Today, Rep. Ben Ray Luján will hold a tour of community health service providers to highlight the need for health care reform that provides quality, affordable health care for all Americans. He will visit Open Hands, a health center dedicated to providing health services as well as loans for medical equipment for disabled and elderly individuals in low income homes. Following his visit to Open Hands, Rep. Luján will tour the Santa Fe Community Guidance Center, which provides primary care and behavioral health services.

"We must make sure that all Americans have access to quality, affordable health care," said Rep. Luján. "The cost of health care is spiraling out of control and even families with insurance are only a job loss or an injury away from losing their coverage. We need health care reform that changes the status quo and provides affordable, quality health care for all Americans."
